DESIGNED BY  FIBERNET

# UN1CO

---

## one

## Are you ready for UN1CO world?

Fibernet developed a family of products able to simplify the operator's work on the field. **UN1CO one** helps you to maximize your **work efficiency, saving time and money.**

Large wheels, ball bearings, side lateral handle and main carbon handle: bring your tools, comfort and safe.

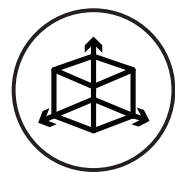

Transform **UN1CO one** from a simple trolley into a workstation in a few steps: once opened, you have everything at your fingertips.

Stop waste time loading and unloading materials from the van: **UN1CO one** is ready for use. And you are ready to intervene!

Thanks to **UN1CO one** you have the opportunity to reduce the operating times, optimizing the job of your teams, avoiding valuable equipment losses.

All the equipment and tools you need, are contained in a single product so efficient that you can even move to work using an economic car.

A black and white photograph of a man walking across a street. He is carrying a large black toolbox with the 'WURTH master' logo, a smaller toolbox, and a large black bag. He is wearing a dark jacket and dark pants. In the background, there is a large building with many windows and a car. A blue banner with the word 'Yesterday' is in the top left corner.

Today

A man with a beard, wearing a grey blazer and black trousers, is walking away from the camera on a city street. He is pulling a black rolling suitcase with silver trim and black wheels. The background is a blurred city street with cars and a large building with many arched windows. A blue banner with the word "Today" is in the top left corner.

Removable separators

Main compartment for your equipment

Splicer compartment
