

ELECTRIC MOTOR

for *Lady* jetting machine

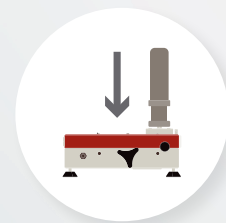

The new electric motor for jetting machine by  FIBERNET
and FTTH will never be the same...

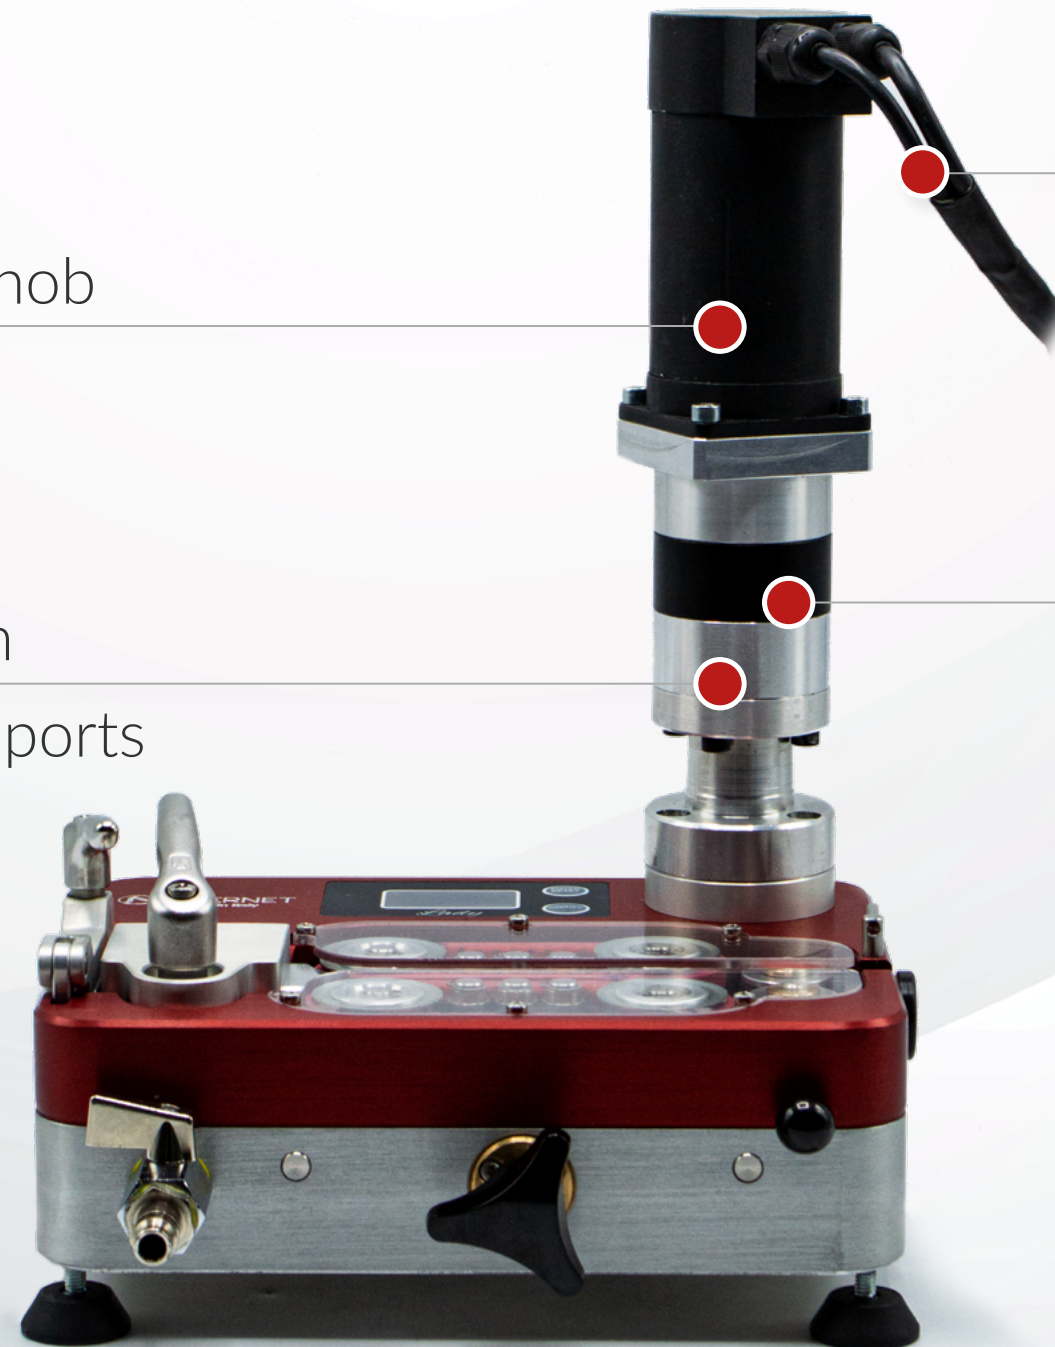

ELECTRIC MOTOR

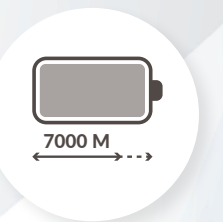

Speed controller knob

Quick-locking system
thanks to special supports

More than 7000 m for single recharge
~ 3 h operative functioning

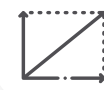

Handless system that
leaves your hands free

Thanks to our **waterproof polypropylene case** you will easily carry your electric motor without worrying about weather conditions

Our R&D department succeeded to realize a small case in spite of its power. We designed a **20 x 34 x 41 cm** case.

During design process we decided to provide a **universal electrical input** to guarantee a high compatibility coefficient.

As our jetting machine its electric motor is **designed in our italian headquarter**. As a worldwide company we are proud to diffuse **Made in Italy**
